

Diabetes Education Program

Adjusting to a recent diabetes diagnosis or living with prolonged diabetes can be difficult to navigate.

Join All Care's Diabetes Education program where you will get an educational, team-based approach to managing your diabetes. Through education, interventions, and personalized support, you'll be able to work towards reversing your diabetes diagnosis or reducing your symptoms to improve your quality of life.

Working alongside Dr. Taylor Temnick

with support of the wellness team and medical team providers, we'll help you manage your diabetes, boost your wellness, and find a renewed sense of self.

Ask a front office associate about our program. Sessions are \$35 per visit and for some insurances, may be an included benefit. You'll work with Dr. Temnick for 12 weeks, with the option to continue for 6-12 months.

Take back your health and wellness today!
